TIME FOR VACCINATIONS AND DENTAL WORK!

We all know the discomfort our horses face every spring with vaccinations and dental work. Feeding one of Emerald Valley's mashes can be a solution for an easily chewed and digested meal after vaccinations and dental procedures.

Our mashes are based on specialty feeds from British Horse Feeds in the UK. Containing no bran or corn, Emerald Valley's Super-Mash Apple or Carrot, SavvyMash and SpookyMash are healthy, low sugar mashes that can be fed in any situation, as a treat or part of a daily ration. Because of its popularity, SpookyMash is available year 'round. SpookyMash with chia and pumpkin seeds, topped with papaya, is a favorite.

Buy 3, Get The Fourth One Free*

No returns, no exchanges, no cash value. Discount will be taken when order is processed.

SEASONAL ALLERGIES?

Try Immuzim... for healthy immune function and respiratory support

Immuzim supports respiratory health and may help promote normal, healthy immune function. Immuzim is for occasional use at time of immune challenge and stress and may be useful for seasonal allergies.

"We at the clinic have been using it for many of our clients as you surely know. Daily, I talk with our clients that use your products and all of them just love them as I do. Dr. L. has seen your products work their magic and is so pleased with all the super feedback we get at the clinic about the great changes in the horses." - Suzanne K, Michigan
