## Formula4 Feet 15 pound BAGS in stock now!

Formula 4 Feet is now eco-friendly and less expensive to ship. The 15lb bag looks just like the 44 pounder with carry handles making it great to take along to horse shows.

A 15 bag of Formula 4 Feet will last the average 1000 pound horse about 6 weeks, plenty of time for you to see the difference from your previous supplements. Remember Formula 4 Feet is so complete that most say they can take their horse off of other supplements and save money!

## Emerald Valley Joins the Women's Horse Industry Convention

The WHIA is the largest business networking group in the world for women working in the horse industry. The association was founded over one year ago by Catherine Masters and is now almost 700 members strong.

This September Emerald Valley will travel to Kentucky to join the WHIA at their Second Annual Conference, which is open to members and non-members. The conference will give attendees a chance to network and do business with other women in the horse industry. A talented array of speakers and panels have been put together as well, to help attendees learn how to better market themselves in the horse industry.

Whether you are a trainer, rider, retail operation or artist, if you love horses enough to be in the industry, you will benefit from this amazing association. Check out their website [www.womenshorseindustry.com](http://www.womenshorseindustry.com)
